Percentage: 96%

PROJECTS

Personal portfolio website
 I have designed and developed a personal portfolio website using a combination of HTML,CSS and JavaScript.The website is built with a responsive design that it adapts to various screen sizes.Utilising Javascript I have incorporated interactive elements to enhance user engagement.
Languages:HTML,CSS, Javascript.

GPA Calculator App
The GPA calculator app developed using Java and Android studio is a handy tool designed to help students calculate their Grade Point Average based on their course grades and credits. The app features a user-friendly interface where students can input their course grades, and credit hours.
Languages:Java

Basic student details website
Basic website using python flask,html,css and database where we can add edit or delete students basic details connected with the database.
Languages:Python,HTML,CSS
